

Buzzy Bee

Instructions: *Buzzy Bee* is a learning prop used to help review skills such as letter ... number ... sight word recognition etc. Print *Buzzy Bee* on cardstock paper cut out and laminate and attach to a paint stick (I use magnets).

Print out the buzz cards and the blank cards on cardstock paper. Cut out buzz cards and laminate. On the blank cards you can write the skills you are working on such as letters ... numbers etc and laminate those as well.

Attach a magnet to the blank square on *buzzy bee* and to the back of all skill cards and buzz cards. Place a skill card on *buzzy bee* and have the children call out what is on the skill card. After about 4 skill cards put a buzz card on *buzzy bee* and have the children buzz when they see the buzz cards.
