

Circle Time Flower Colors

childcareland.com

Instructions: Print on cardstock paper and cut out. Glue flowers on to craft sticks. Show the flower sticks to the children one at a time and name each color.

After you go through all of the colors do the following:

red flower ... red flower what do you see? (hold up red flower)
I see a green flower looking at me. (hold up green flower)
green flower ... green flower what do you see? (remove red flower)
I see a blue flower looking at me. (hold up blue flower)
(repeat with the rest of the colors)

The last color flower would say "I see all of the color flowers looking at me"
