

# Ladybug Catcher Math

Instructions: Print on cardstock paper ... cut out and laminate. You can write numbers ... number words ... number dots ... addition and subtraction equations on the blank skills cards. Children put a skill card on the leaf and then put the correct number of ladybugs next to the leaf.

We put the ladybugs in a bug catcher and the children take them out of the catcher when they are counting. You can see a video of this activity at <http://www.childcareland.com/videos9.html>.
