Play Dough Counting Cards

15

A grid of 15 circles arranged in three rows of five.

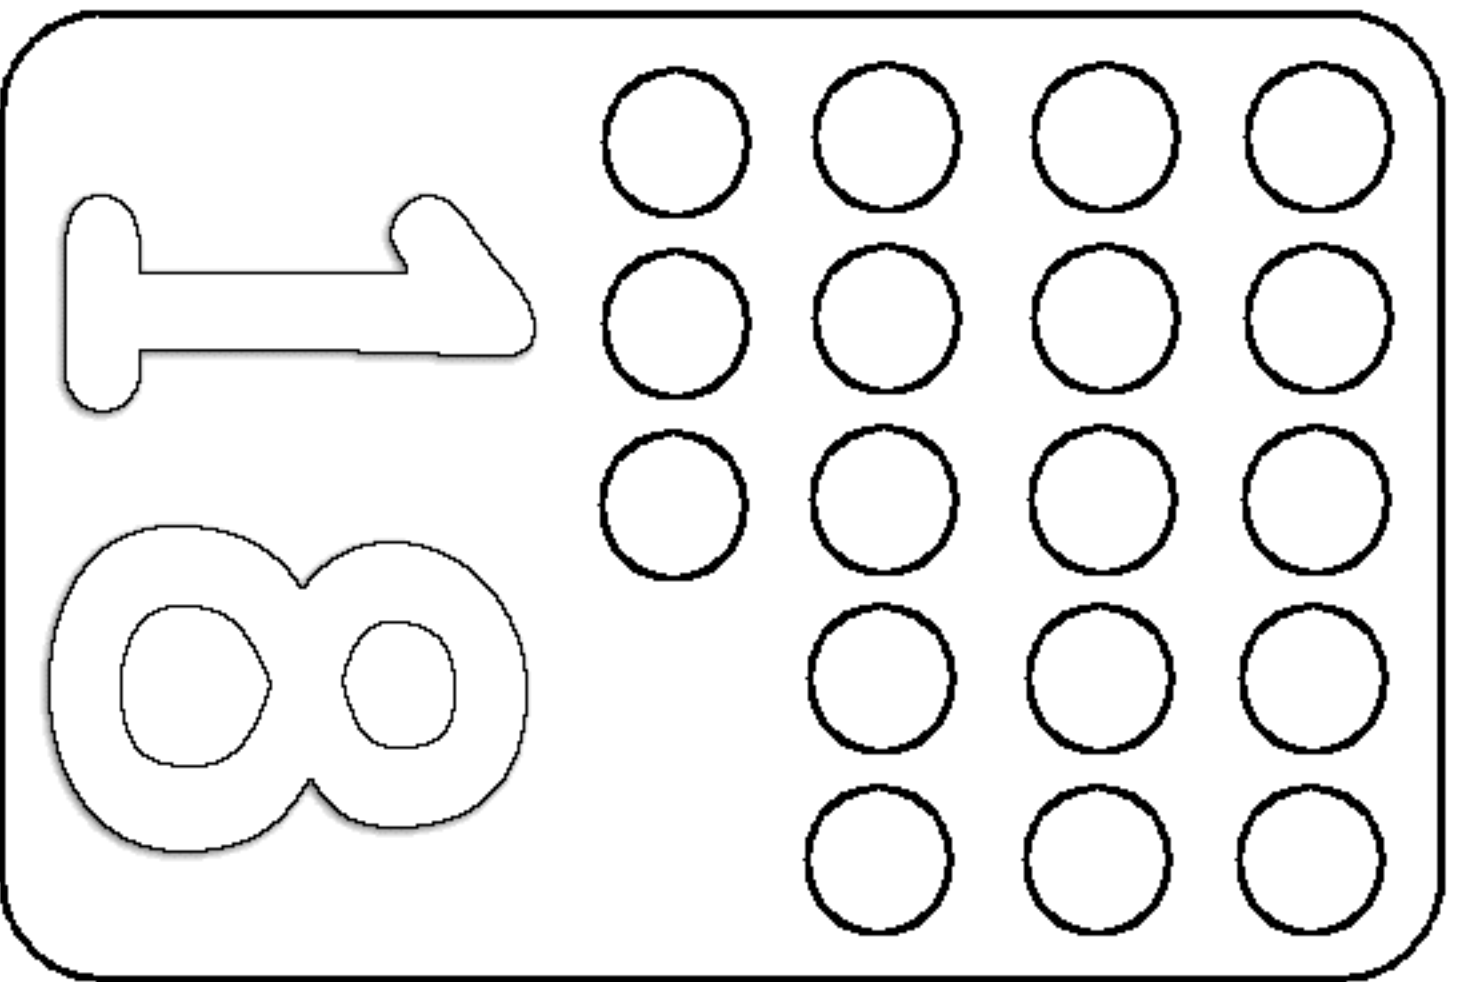

16

A grid of 16 circles arranged in three rows of five, with one additional circle below the first row.

Play Dough Counting Cards

A rectangular card with rounded corners. On the left side, the numbers '1' and '7' are printed in a large, hollow, sans-serif font. To the right of the numbers is a grid of 17 circles arranged in four rows: the first row has 4 circles, the second row has 4 circles, the third row has 4 circles, and the fourth row has 5 circles.

A rectangular card with rounded corners. On the left side, the numbers '1' and '8' are printed in a large, hollow, sans-serif font. To the right of the numbers is a grid of 18 circles arranged in four rows: the first row has 4 circles, the second row has 4 circles, the third row has 5 circles, and the fourth row has 5 circles.

Play Dough Counting Cards

A rectangular card with rounded corners. On the left side, the number '19' is written in a large, hollow, sans-serif font. To the right of the number is a grid of 20 small, empty circles arranged in four rows and five columns. The first row contains 5 circles, the second row contains 5 circles, the third row contains 5 circles, and the fourth row contains 5 circles.

A rectangular card with rounded corners. On the left side, the number '20' is written in a large, hollow, sans-serif font. To the right of the number is a grid of 20 small, empty circles arranged in four rows and five columns. The first row contains 5 circles, the second row contains 5 circles, the third row contains 5 circles, and the fourth row contains 5 circles.

Play Dough Counting Cards

Instructions: Print on cardstock paper ... cut out and laminate. Children can use play dough to fill the inside of each number. They can also make play dough balls and either put the correct number of balls on the plain number cards or put on the cards with the blank circles. This is a great activity for developing math skills and for fine motor skills development.
