Sight Words In A Can

Instructions: You will need to have clean paint can or some kind of metal can with a lid. I purchased mine at lowes but you can find them at most home improvement and hardware stores. Print sight words out on cardstock paper. Cut them out and laminate. Attach self-adhesive magnets to the back of each sight word.

Children choose a sight word from the outside of the can and if they can read it they put it inside the can. This can be done as both an individual or group activity.

I have included the 220 Dolch sight word list ... 108 high frequency beginning sight words ... and a blank page for you to include your own words.
