# Ice Cream Fine Motor Dots

Instructions: Print on cardstock or regular paper depending on which pattern you choose and the materials you will be using to fill in the dots. Some things you can use include beads ... sequins ... glue ... paint ... or markers. You can dip a q-tip in the glue or paint and then apply it to the blank dots.

I have made a variety of patterns in black and white as well as color along with two different sizes and even word tracing.
